UNITED GAS CONSTRUCTION...\$100,000,000 WORTH

Yes, in 1951 our company invested more than 100 million dollars in the Gulf South . . . in new wells, additions to our pipe lines and distribution systems, new compressor stations, warehouses and office buildings, new facilities to assure dependable natural gas service to all of our customers.

Many of these expenditures

were in the form of payrolls and local purchases — which went almost immediately into the channels of trade in many of the communities served by United in Texas, Louisiana, Mississippi, southern Alabama and northwestern Florida. Even now, these millions of dollars are being spent and spent again - making business better for everybody.

MISSISSIPPI PLANS COTTON WEEK FETE

Cotton, which accounted for a gross income of \$384,750,000 in Mississippi last year, will be feted from May 12-17. Governor White designated that period as Cotton Week in recognition of its place in the economy of the state. The proclamation recounted that 2,330,000 acres were planted in cotton last year. The income from it represented 96.1 per cent of the farm crop income of the
